CHEMICALS

COMPANY PROFILE

Quality Workmanship

Experience and knowledge to offer turnkey solutions in the area of structural repairs, refurbishment and construction. The solutions that effectively enhances the appearance and durability of any facility.

Major Expertise

- Building Modifications and Maintenance
- Concrete Drilling & Cutting
- Concrete Repairs & Structural Strengthening
- Water Proofing
- Floor re-rolling & protective coating
- Investigation & assessment

Introduction

Safar Enterprise is a specialized applicator of construction chemicals. Established in 2006, the company has been providing services across India for 20 years. The company's primary focus lies in the retrofitting and repair of RCC structures—including oil refinery projects, fertilizer plants, bridge projects, cargo jetties, various civil structures, and old buildings. our provide quality workmanship.

Reliable Estimation & Quality Assurance

The experience of the team gives a reliable budget which we believe is an integral part of the refurbishment and maintenance work process. Reliable budgets are derived from significant experience of these structural refurbishment techniques.

Concrete Repair & Strengthening

Strengthening is essential for damaged structural elements due to adverse environmental conditions and other distressing factors.

Strengthening of RCC using various promising techniques such as externally bonded steel plates, concrete jacketing, Fibre reinforced laminates or sheets, external pre-stressing / external bar reinforcement technique and ultra-high performance concrete overlay have been extensively used, we have been providing these services with industries leading consultants and structural engineers.

OUR SPECIALIZED SERVICES

CONCRETE REPAIR

- Patch Repairs
- Crack Repairs
- Dampness Repairs
- Surface Treatments

STRUCTURAL STRENGTHENING

- Concrete Jacketing
- Steel Jacketing
- Guniting
- CFRP Laminates
- CFRP Wrapping

CORROSION PROTECTION

- Cathodic Protection

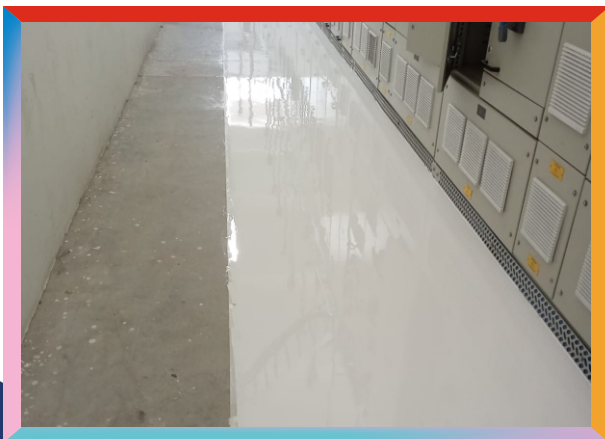

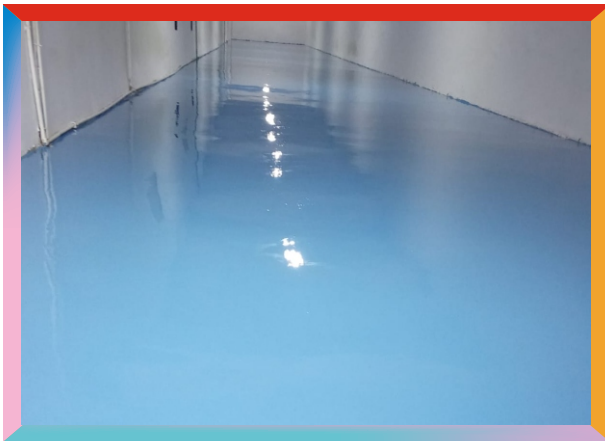

PROTECTIVE COATINGS

- Epoxy Coatings
- PU Coatings
- Polyurea Coatings
- Floor Screeds

Floor Re-profiling & Protective Coatings

Specialized treatment for commercial, residential and industrial floors for durability and aesthetics

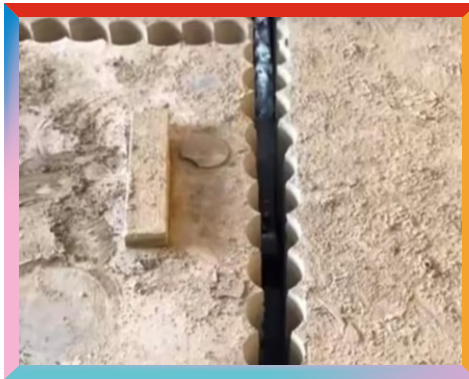

- Customized solutions from inspection to execution for repairs and coatings
- Floor protective coatings & beautifications
- Grinding and Re-profiling of floors
- Durable Localized patch repairs
- Leveling of entire floors for easy and flaw less movement of forklifts etc.
- Floor Joints Treatment

Concrete Drilling

Rotary Hammer Drilling

- Hammer drilling applications for drilling & fixing post Re-bar
- Anchor fastening and through holes using hand held drilling machine with suitable drill bit
- Extremely useful for new constitution, modifications in structures, changer / alteration in design and repairs and strengthening of the structure

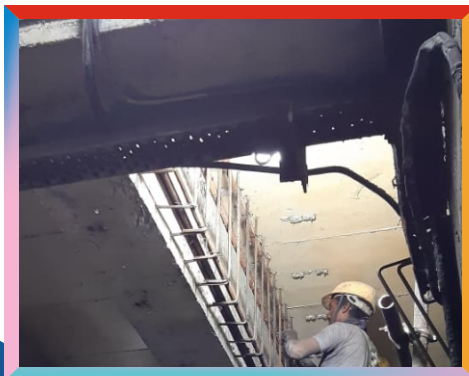

Core Drilling

Expertise in precise circular opening including re-bar cutting if permissible
Also commonly used for MEP applications placing anchor bolts, re-bars or analysis of RCC structure & rock

Principal Applications

- New Construction / modifications in structures
- Change / Alteration in design
- Making Opening in the RCC elements
- Repair and strengthening of the structure
- Testing of existing strength of concrete (core sample)

Construction & Modification

- Technical competence
- Experience in G+1, Villa & commercial warehousing construction
- Integrated solutions with one stop accountability

BUILDING CONSTRUCTION

- G+1 Building Contracting
- Building Modifications
- Interior Fit outs

Glimpse of Our Projects

Beam Micro Concrit

Column CFRP Work

Water Tank Retrofitting

Beam Micro Concrit & GFRP

Beam Formwork

Ceiling Rebar Grout

Staircase Rebar Grout

Beam Concrete Dismantle

Column Jacketing

Major Completed Projects :

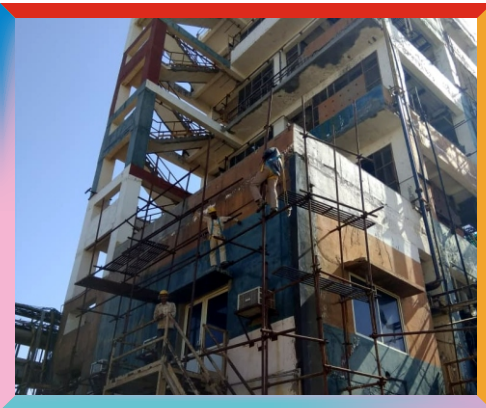

Projects Name BRL

Surface Treatments, micro concreting, PMM ,
Epoxy injection Grouting ,GFRP Wrapping,
Protective coating, Etc

Projects Name FMC

Surface Treatments, micro concreting, PMM,
Epoxy injection Grouting, CFRP wrapping,
Protective coating, etc

Projects Name Solaris

Surface Treatments, micro concreting, PMM,
Epoxy injection Grouting, GFRP Wrapping,
Protective coating

Projects Name Coromandel

Surface Treatments, Jacketing, micro, PMM,
CFRP WRAPPING, Epoxy injection Grouting,
Protective coating, etc

Major Completed Projects :

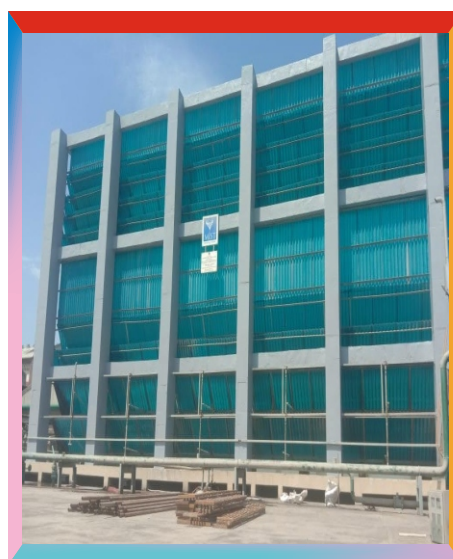

Projects Name IFFCO kandla cargo Jetty ,
Surface Treatments, fibre fromwork Jacketing,
micro, PMM, Epoxy injection Grouting,
Rebar grouting, GFRP Wrapping,
Protective coating,

Projects Name, IPL ,
Surface Treatments, Jacketing micro,
PMM, Epoxy injection Grouting,
Rebar grouting, concreting,
concrete cutting, flooring,
GFRP Wrapping, Protective coating

Projects Name apcotex cooling tower
Surface Treatments, PMM,
Epoxy injection Grouting, Protective coating

Machinery & Equipments

SI No.	Description	Make	Nos
1	Concrete Breaking Machine	BOSCH	10
2	Concrete Chipping Machine	BOSCH	2
3	Concrete Core Drilling	Shibuya	12
4	Hammer Drill Machine - 2 k.g	Bosch	11
5	Hammer drill Machine Medium duty	Bosch	7
6	Rotary Hammer Machine Heavy Duty	Bosch	12
7	Advance Hand Held Cut N	Husqvarna	1
8	Hand Held Grinding & Cutting	Makita	9
9	Vacuum Cleaner	Makita	5
10	Floor Grinding Machine with Dust Extractor & Separator	Scan Maskin Combillex 450	2
11	Floor Grinding Machine with Dust Extractor & Separator	Scan Maskin Combillex 650	1
12	Concrete Mixer	Maxito	2

Right People. Right Choice
